

Film Incentive BC (FIBC)

Eligibility Checklist

Note the following deadlines:

1. The Production must be completed no later than 24 months from the end of the taxation year in which principal photography (or key animation, for animated productions) began;
2. The Production Corporation must apply for and receive a completion certificate within 30 months from the end of the corporation's taxation year in which principal photography (or key animation, for animated productions) began;
3. A corporation is entitled to a tax credit in respect of a taxation year if the corporation files with the Canada Revenue Agency all information and records required for the tax credit within 18 months after the end of that taxation year (for taxation years beginning on or after February 19, 2020) or within 36 months after the end of that taxation year (for taxation years beginning before February 19, 2020), including the eligibility certificate and, if the tax credit is claimed in respect of the taxation year in which the production is completed, the completion certificate.

We recommend that you apply for an eligibility certificate within 12 months of the corporation's taxation year end to provide for sufficient processing time. If you apply for the eligibility and completion certificate simultaneously, please review the requirements for both stages. If you are submitting an application for more than one production, each application must contain its own set of documents, as set out in the checklist.

With respect to the 30-month deadline set out in #2 above, if a completion certificate is not issued within that time period, the eligibility certificate may be revoked, no further tax credits with respect to the production will be paid and any tax credits already paid may have to be reimbursed. In addition, if the 30-month time period has elapsed and an eligibility certificate has yet to be issued with respect to the production, an application for an eligibility certificate will be denied and the Production Corporation will not be eligible to receive any FIBC tax credits with respect to the production. **To avoid these situations, we recommend that you submit your application for a completion certificate to Creative BC within 24 months of the taxation year end in which principal photography of the production began.**
